

TOP CODE REQUEST

Ark-La-Tex Health Network would like to request each provider office submit his/her top billed CPT codes for our records.

By collecting these codes and maintaining them in ALT's database, ALT is able to a) maximize our contracting efforts on your behalf by performing yearly audits of each payor's reimbursement, and b) provide you with detailed ballots that include proposed reimbursement specific to your specialty.

Please indicate your top 30 codes, preferably 15 place of service office, and 15 place of service facility. As always, feel free to submit your own spreadsheets to us that include more codes either by fax at 903-614-5343, or email to joanne.gibson@christushealth.org.
